PROFILE

Computer Science and Engineering (AI & ML) graduate with a CGPA of 8.99/10 and hands-on experience in Python, software development, data analysis, and machine learning. Published IEEE research author with internship experience at Geekwick TechMedia Services Pvt. Ltd., contributing to backend development, API testing, web application development, and database-related tasks. Strong foundation in SQL, JavaScript, Git, and software engineering principles, with a passion for building scalable software solutions and AI-driven applications that solve real-world problems.

SKILLS

- **Programming:** Python, C(Basics)
- **Web & DB:** HTML, JavaScript, SQL
- **Data Tools:** Pandas, Matplotlib, Excel, Power BI
- **Tools:** Git, GitHub, Postman
- **Machine Learning:** Data Preprocessing (Basic), Machine Learning Basics

EDUCATION

B.E. in Computer Science & Engineering (AIML)

2022 – 2026

ATME College of Engineering, Mysuru

CGPA: 8.99/10

INTERNSHIP EXPERIENCE

Data Science Intern, Geekwick TechMedia Services Pvt. Ltd., Mysuru

Feb 2026 – June 2026

- Worked on software development and data-related tasks in a professional environment.
- Contributed to backend development, web application features, and API testing using Postman.
- Utilized JavaScript, SQL, Git, and GitHub for development and collaboration tasks.
- Gained exposure to machine learning concepts and software development workflows.

PROJECTS

AI-driven Crop Disease Prediction and Management System

Developed a machine learning-based system for crop disease identification using image data and preprocessing techniques. The project focused on assisting early disease detection to support better crop management.

AI-Powered Prompt Review & Enhancement System

Developed a web application that analyzes and enhances user prompts through AI integration and backend processing. The system provides suggestions to improve prompt clarity and effectiveness.

ACHIEVEMENTS, LEADERSHIP & CERTIFICATIONS

- Published research paper "**Context-Aware Machine Learning Model for Large-Scale Text Classification**" at IEEE CONNECT 2025.
- **Best Volunteer Award**, IET (March 2025)
- **Community Impact Award**, IET (March 2025)
- **IET Logistics Head** – Coordinated logistics for technical events and workshops.
- Volunteer, Youth For Seva – Supported educational and community initiatives.
- NVIDIA – Building LLM Applications with Prompt Engineering
- IBM – Python for Data Science
- JPMorgan Chase – Excel Skills Job Simulation
