PROFILE

Final-year B.E. Computer Science (AI & ML) student with a CGPA of 8.99/10 and hands-on experience in Python, Machine Learning, Data Analysis, and AI application development. Published IEEE research author with experience in AI-driven projects related to agriculture and text classification. Seeking opportunities in Software Development, AI/ML, and Data Science roles.

SKILLS

- **Programming:** Python, Java (Basic), C
- **Web & DB:** HTML, CSS, JavaScript, SQL
- **Data Tools:** Pandas, Matplotlib, Excel, Power BI
- **Tools:** Git, GitHub, Postman, Jupyter Notebook, VS Code, Google Colab
- **Machine Learning:** Data Preprocessing, Machine Learning Fundamentals

PROJECTS

AI-driven Crop Disease Prediction and Management System

Developed a machine learning-based system for crop disease identification using image data and preprocessing techniques. The project focused on assisting early disease detection to support better crop management.

AI-Powered Prompt Review & Enhancement System

Developed a web application that analyzes and enhances user prompts through AI integration and backend processing. The system provides suggestions to improve prompt clarity and effectiveness.

EDUCATION

B.E. in Computer Science & Engineering (AIML)
