PROFILE

Computer Science and Engineering (AI & ML) graduate with a CGPA of 8.99/10, combining strong foundations in Python, machine learning, data analysis, and software development with practical industry experience in backend development, REST APIs, and database integration. IEEE research paper author with hands-on experience in developing AI-driven applications.

SKILLS

- **Programming Languages:** Python, C (Basic)
- **Web Technologies & Databases:** HTML, JavaScript, SQL
- **Data Analysis & Visualization:** Pandas, NumPy, Matplotlib, Microsoft Excel, Power BI
- **Development Tools:** Git, GitHub, Postman, VS Code, Jupyter Notebook, Google Colab
- **Machine Learning:** Data Preprocessing, Machine Learning Fundamentals, Model Training and Evaluation.

EDUCATION

B.E. in Computer Science & Engineering (AI & ML) 2022 – 2026
ATME College of Engineering, Mysuru
CGPA: 8.99/10

INTERNSHIP EXPERIENCE

Intern, *Geekwick TechMedia Services Pvt. Ltd., Mysuru* February 2026 – June 2026

- Engineered backend components using Node.js and Express.js within a microservices-based architecture.
- Developed RESTful APIs and integrated MongoDB using Mongoose; implemented API validation, error handling, and request management.
- Used Postman for API testing and Git, GitHub, and Docker for version control, collaboration, and application development.

PROJECTS

AI-driven Crop Disease Prediction and Management System

- Engineered a deep learning application using TensorFlow and Keras to classify 38 plant disease categories from leaf images.
- Integrated CLAHE-based image preprocessing, Grad-CAM explainability, and Gemini API-powered multilingual agricultural recommendations through a Flask web application..
- ***Technologies:*** *Python, TensorFlow, Keras, OpenCV, Flask, SQLite, Google Gemini API*

AI-Powered Prompt Review & Enhancement System

- Developed a Generative AI application leveraging Google Gemini API to evaluate, optimize, and enhance prompts using ISTVON and COSTAR frameworks.
- Implemented automated prompt refinement, grammar correction, rule-based validation, and user-specific processing history.
- ***Technologies:*** *Python, Flask, Google Gemini API, SQLite, LanguageTool, HTML, CSS, JavaScript*

ACHIEVEMENTS, LEADERSHIP & CERTIFICATIONS

- **Research Publication:** IEEE CONNECT 2025 – "Context-Aware Machine Learning Model for Large-Scale Text Classification."
- **Awards:** Best Volunteer Award and Community Impact Award, IET (2025).
- **Leadership & Volunteering:** Logistics Head, IET; Volunteer, Youth For Seva.
- **Certifications:** NVIDIA – Building LLM Applications with Prompt Engineering; IBM – Python for Data Science; JPMorgan Chase – Excel Skills Job Simulation.
